Subject: Region 6 thermal desorption system information

Thank you for your participation on Monday 4/17 call for Tradebe's thermal desorption RCRA exemption issue.

As we discussed at the call, please send us process description and flow diagram of thermal desorption unit at TDX and two Chemical Waste facilities in Region 6. We have a flow diagram for Rineco. If you have any Air and/or RCRA inspection reports for these facilities, that would be very helpful.

We would like to make comparisons with those of Region 6 sites with Tradebe so we can make proper response to the party who has raised the issue.

Your proper response will be appreciated.
